

A day without a Penrad System is a day you're losing money.

PenRad, the Information System that pays you back.

Save time, money and increase professional productivity with PenRad solutions. It's simple math, PenRad solutions return 5 times or better on the dollar. Not deploying PenRad solutions repeatedly costs your facility money and lost productivity.

Choose from our following systems: The complete PenRad Mammography Information system, our PenView multi-modality SoftCopy system, Ultrasound CAD and Breast MRI application, and our PenTrack tracking only package.

And add for additional productivity: Automatic prefetching of priors and distribution, scanning of priors and documents, HL7 bi-directional, Dicom SR, PR and WL, appointment scheduling, web portal/ email and phone for patients results or direct import of breast US and MRI findings. And add our Digital QA/QC package for a dollar a day.

PenRad systems offer complete narrative report generation for breast procedures and dexa, one button auto clone negatives, complete audits and statistical reporting, automatic profiler of biopsy results based on imaging attributes, automatic risk model calculators, image capture on reports and Nurse Navigator documentation and reminder system.

Our solutions advance professional productivity and reduce expenses for breast imaging centers. Interested in learning more about PenRad solutions, call 763.475.3388 for more info or to schedule a webinar or visit our website at PenRad.com.
