

# PenLung™

## LDCT Lung Screening Management System

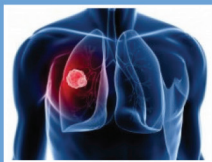

Low Dose Computed Tomography (LDCT)

PenLung is a comprehensive unified software solution that automates eligibility, reporting, auditing and registry upload.

### More than a tracking system.

- Data extraction from report narrative
- Patient exam, recall, past due letters
- Email option decreases cost
- 50 individual finding profiles
- Incorporates ACR LungRADS™
- Tracks recommendations and outcomes
- Tracks non-conformance for liability
- Pathology and cancer staging collection
- Collects smoking and risk history data
- Automates patient screening eligibility
- Tracks unresolved cases to resolution
- Extensive statistical audit reporting
- Registry export for compliance
- Tablet options for patient engagement
- Compliments & enhances nurse navigation

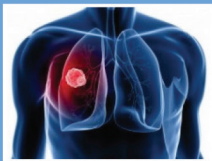

**Incorporate PenLung  
NOW.  
Reduce administrative  
burdens, increase  
performance.**
